The Department of Psychiatry at the University of Florida is recruiting for faculty members at the Assistant, Associate, or Full Professor level for our Mood Disorders Program.

The positions will be a core part of the growing clinical, educational, and translational research program in the Department of Psychiatry at UF. These positions are in a major medical center in Gainesville Florida, at a Top 10 public university in a pleasant, family friendly community with a modest cost of living and high quality of life.

Salary is competitive and includes attractive benefits.

Required Qualifications

- MD, DO, Board Certified or Board Eligible psychiatrists
- Clinical experience with neuromodulation approaches (e.g. TMS, DBS, ECT)
- Collaborative approach to clinical care
- Teaching and mentoring

The adult outpatient and inpatient services provided by the Department of Psychiatry, includes comprehensive assessment, medication management, electroconvulsive therapy (ECT), transcranial magnetic stimulation (TMS), deep brain stimulation (DBS), cognitive behavioral therapy (CBT), dialectical behavior therapy (DBT), a specialized geriatric psychiatry inpatient unit, and an inpatient unit for medically and psychiatrically complex patients, providing an ideal setting for clinical treatment of mood disorders.

Interested applicants are required to apply through Careers at UF website: http://jobs.ufl.edu and search job numbers: 39078 or 41135
