

# HYBRID MYCHART/ZOOM MODEL

Make sure you are logged into Epic, Email AND Zoom

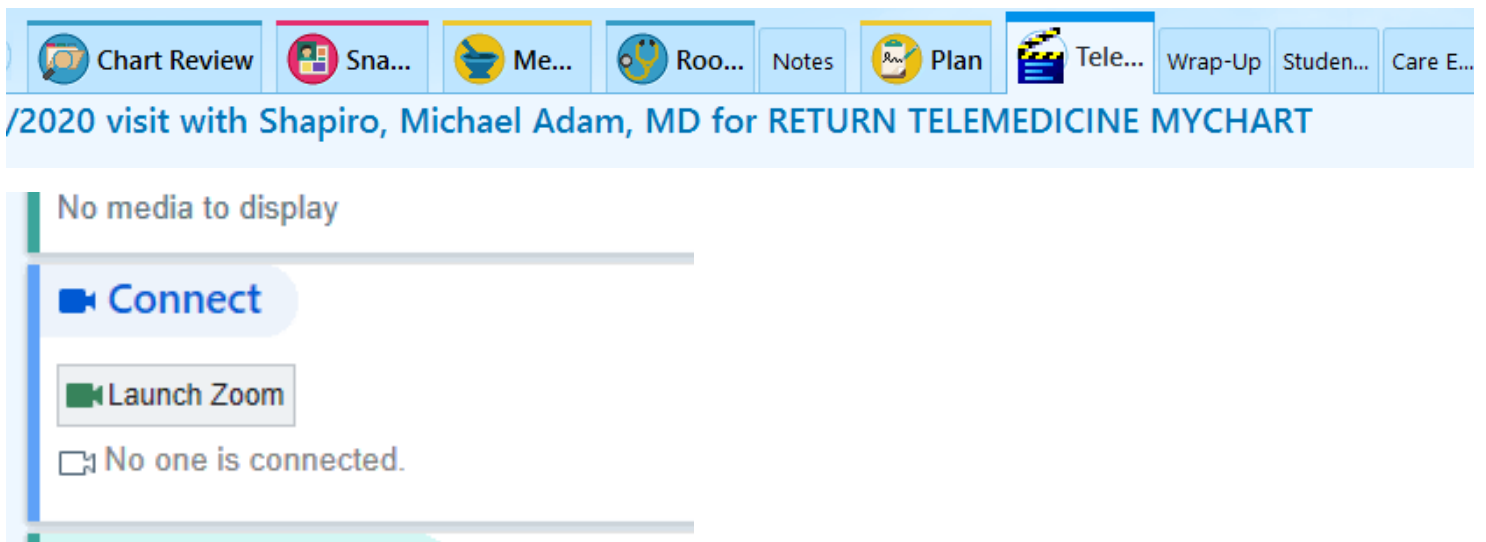

1. In Epic Schedule, double-click the appointment/camera to open the appointment

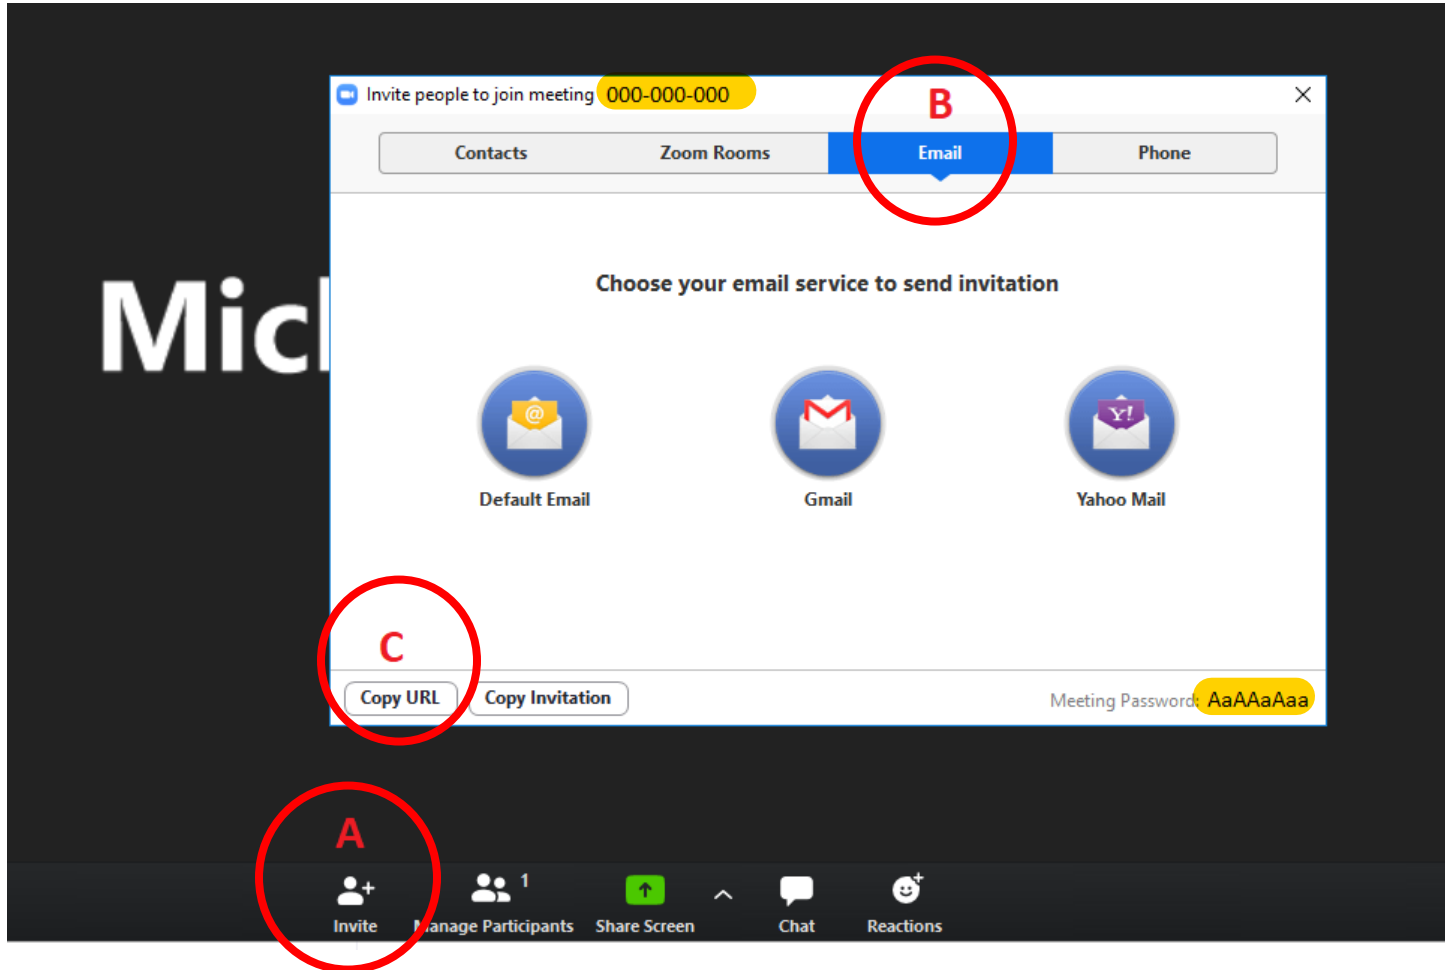

2. If brought into Pre-Charting because patient has not arrived, click “Start the Visit”

3. Once in Telemedicine tab, scroll down to CONNECT and click “Launch Zoom”

4. Your Zoom window will open with a unique Meeting ID and Password (highlighted).
  - a. Click “Invite” on the very bottom
  - b. Click “Email” at the top (or “Phone” and send to patient’s cell phone, then skip remaining steps)
  - c. Click “Copy URL” at the bottom

5. Open a new Email message, and press CTRL+V in the body of the email, the Zoom link to that window will appear. Hit the ENTER key after the link, and it will convert to hyperlink the patient can click. Then send email.
